HEAT ADVISORY
STAY SAFE IN THE HEAT

DRINK at least one quart of water for every hour you are active.

Do not wait until you are thirsty to DRINK water. It’s too late! Your body is a quart low in water and you’ve already started to dehydrate.

Keep drinking 6-8 gulps of WATER at least every 10 minutes when active outdoors.

AVOID coffee if planning on participating in outdoor activities. Coffee is dehydrating!

WEAR a hat and light colored, loose fitting clothing with long sleeves.

CARRY a cell phone in case of an emergency.
