**Heat Advisory**

Tips to Stay Safe in the Heat

1. **Drink** at least one quart of water for every hour you are active.
2. Do not wait until you are thirsty to **drink** water. Your body is a quart low in water and you’re already starting to dehydrate.
3. Keep drinking 6-8 gulps of **water** at least every 10 minutes when active outdoors.
4. **Avoid** coffee if planning on participating in outdoor activities. Coffee is dehydrating.
5. **Wear** a hat and light colored, loose fitting clothing with long sleeves.
6. **Carry** cell phone in case of an emergency.
